Error Analysis

Assignment

. It will help you identify and prioritize your error patterns.

1. Read your paper and mark any errors you notice yourself.
2. Discuss the errors with the consultant and togetheT /TT208.2 reTm [(ma)-ding errors.
3. Go through the errors and 08.2 Tm [(ma)-each error with a code from the table.
4. Review your errors and put a chec[(ma)-in the U U Rcolumn for(ma)-each error type.
5. Total your chec[(ma)-08.2 Tm [s for(ma)-each error type and write the total in the column.
6. Based on the totals, indicate the three most frequent errors and label them 1, 2, 3, 4, and 5 in the priorities column.

Work on your most frequent global errors first.

Error Type		Errors	Totals	Top Priorities
Error Type Code	Explanation			
Global errors. More serious which usually interfere with understanding				
cl (clause)	A dependent clause is incorrectly formed.			
cond	A conditional sentence has been incorrectly formed or used.			
conn	The connector is incorrect or missing			
modal	The modal has been incorrectly formed or used.			
pass
