

DESIGNING FOR USERS WITH **LOW VISION**

DO...

Use good color contrast & a readable font size

Publish all information on web pages

Use a combination of color, shapes & text

Follow a linear, logical layout

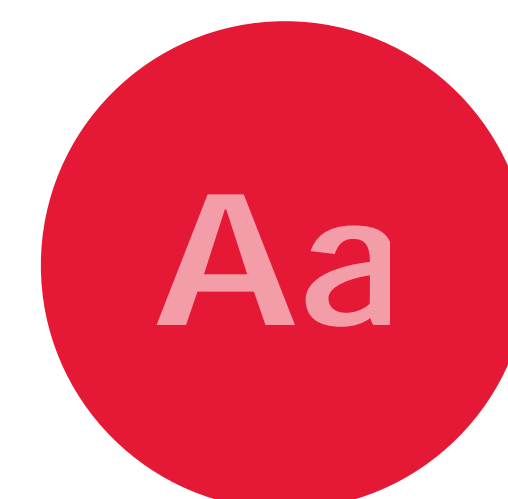

200% magnification

Put buttons and notifications in context

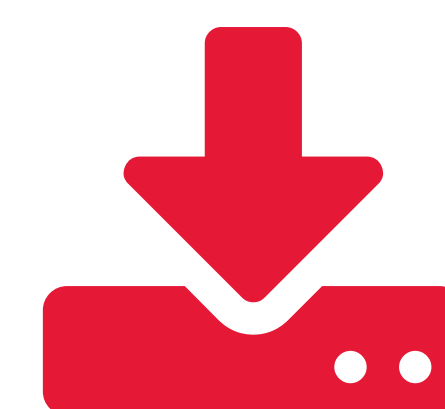

DON'T...

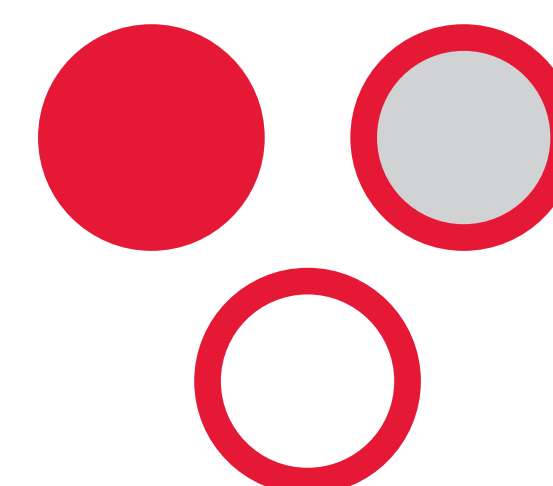

Use low color contrast & small type

Bury information in downloads

Only use color to convey meaning

Spread content all over the page

200% magnification

Separate actions from their context
